# STRUCTURE, FEES AND VENUE

## STRUCTURE OF THE COURSE AND PROGRAMME

The CSCM is a full-time residential course and all delegates have to stay at the venue for the duration of the course.

Participants receive study notes approximately one month before the Programme starts to enable the required pre-course reading. Evaluation is done on a daily basis on the course material itself as well as participation in, and contribution to, a specifically formulated project. Criteria will have to be met in terms of performance and a mark of at least 50% for the tests and project presentations is needed to qualify for the certificate.

The Programme is intensive with class contact hours normally from 08h00 - 17h00. Participants will be taken to an existing shopping centre where a "SWOT" (Strengths/Weaknesses/Opportunities and Threats) analysis will be prepared on the centre itself.

The course provides an exceptional opportunity for participants to acquire in a concentrated form, the principles of shopping centre management and development. Not only will participants benefit from the lectures themselves but also from the interchange of ideas with their colleagues on the course.
